ABOUT THE SEMINAR :

The present New Education Policy of India 2020 (NEP 2020), aims at school and higher education institutions both outlining the vision of new education system of India. Through NEP 2020, the Government of India has paved the way for transformative and dynamic reform in school and higher education system of our country. The New Education Policy 2020 was approved by the Union Cabinet of India on July 29, 2020. The new education policy has replaced the previous "New Policy on Education, 1986" which was the second only education policy of India since independence as the first "New Policy on Education" was launched in the year 1968. The first education policy of 21st century of our country which has replaced the 34 years old New education policy, in its first step of implementation has renamed the erstwhile Ministry of Human Resource Development (MHRD) as the Ministry of Education (MOE) as suggested by the NEP 2020. The new NEP 2020 is based on four pillars which are: Access, Equality, Quality and Accountability. One of the major decisions of NEP 2020 is that there will be a 5+3+3+4 schooling structure emphasizing on the first five years of early childhood care and education beginning at age of three, which comprises of 12 years of school and 3 years of preschool or anganwadi replacing old 10+2 structure. It also emphasizes on the use of mother tongue or local language as the medium of instruction till Class 5 and aims to increase state expenditure on education from around 3% to 6% of the GDP as soon as possible. For higher education it proposes a 4-year multi-disciplinary bachelor's degree in an undergraduate programme with multiple exit options and a Higher Education Commission of India (HECI) will be set up to regulate higher education. This New seminar is an attempt to share and discuss the applicability and implementation of NEP 2020 effectively in the educational institutions across India. The conclusion drawn from the seminar would facilitate the organizers, participants and other stakeholders in making suggestions and legislative and policy based interventions to bring about positive and wholesome transformation in both social cum legal sphere.
