December	14. Poem: My Dear Soldiers	Students will be able to: <ul style="list-style-type: none"> • Express gratitude and emotions through poetic expressions. • Analyze tone and structure in poetry. • Create thank-you cards or poems for soldiers. • Improve oral fluency through recitation.
	Grammar: Direct & Indirect Speech	
January	15. Rani Abbakka	Students will be able to: <ul style="list-style-type: none"> • Explore the role of women in India's resistance movements. • Identify historical facts and key events. • Write character sketches and timelines. • Participate in storytelling and dramatization.
	Grammar: Modals, Essay Writing: Harmful Effects of video games	
February	Grammar: Essay Writing: The power of Media Formal Letters Revision	
March	Annual Examinations.	

Sub: Maths

Month	Chapter / Topic	Learning Outcomes
April	Chapter-1 Integers	1. Understand and represent integers on a number line. 2. Apply rules for integer operations. 3. Perform addition, subtraction, multiplication, and division of integers. 4. Solve real-life problems using integers.
	Chapter-2 Fractions and Decimals	1. Understand the concept of fractions and decimals. 2. Perform operations on fractions and decimals. 3. Compare, simplify, and convert between forms. 4. Solve real-world problems using fractions and decimals.
May	Chapter-3 Data Handling	1. Collect, organize, and represent data using charts and graphs. 2. Interpret bar graphs, pie charts, and pictograms. 3. Calculate mean, median, and mode. 4. Apply data handling to real-life scenarios.
June	Chapter-10 Algebraic Expressions	1. Identify and form algebraic expressions. 2. Recognize terms, coefficients, and variables. 3. Perform operations on algebraic expressions. 4. Simplify and evaluate expressions.
July	Chapter-4 Simple Equations	1. Form simple equations from statements. 2. Solve linear equations using inverse operations. 3. Verify the solutions of equations. 4. Apply equations to solve practical problems.
August	Chapter-5 Lines and Angles	1. Identify and classify types of lines and angles. 2. Measure and draw angles accurately. 3. Understand angle pairs and their relationships. 4. Apply angle properties in problem solving.
September	Revision + Term 1	
October	Chapter-6 The Triangles and Its Properties	1. Classify triangles based on sides and angles. 2. Apply angle sum and exterior angle properties. 3. Understand triangle inequality property. 4. Use medians and altitudes in solving problems.
November	Chapter-7 Comparing Quantities	1. Understand ratios, proportions, and percentages. 2. Convert between fractions, decimals, and percentages. 3. Calculate increase/decrease and discounts. 4. Apply concepts to real-life financial problems.
	Chapter-8 Rational Numbers	1. Define and represent rational numbers on a number line. 2. Perform operations on rational numbers. 3. Identify equivalent rational numbers. 4. Apply rational numbers in real-life contexts.
December	Chapter-9 Perimeter and Area	1. Understand and apply formulas for perimeter and area. 2. Identify and measure standard 2D shapes. 3. Perform unit conversions. 4. Solve practical problems using perimeter and area.
	Chapter-11 Exponents and Powers	1. Understand the concept of exponents and powers. 2. Use laws of exponents in calculations. 3. Simplify exponential expressions. 4. Apply exponents in scientific and real-life contexts.
January	Chapter-12 Symmetry	1. Identify line and rotational symmetry in shapes. 2. Draw lines of symmetry for 2D figures. 3. Recognize symmetry in nature and objects. 4. Use symmetry in geometric constructions.
	Chapter-13 Visualising Solid Shapes	1. Recognize 3D shapes and their parts. 2. Visualize and interpret 3D objects from 2D views. 3. Identify faces, edges, and vertices. 4. Understand and draw nets of solid shapes.
February	Revision	1. Review second-term topics systematically. 2. Practice application-based problems. 3. Strengthen exam strategies and time management. 4. Prepare thoroughly for Term 2 exam.
March	Term -2	

Evaluation/Examinations

Exams	Chapters/ Topics	Internal Assessment
PT 1	Chapter -1,2 and 3.	On the basis of regular observation and written test.
PT 2	Chapter-6,7 and 8.	On the basis of regular observation and written test.
Term 1	Chapter -1,2,3,4,5 and 10	On the basis of regular observation and written test.
Term 2	Chapter -6,7,8,9,11,12 and 13.	On the basis of regular observation and written test.

Subject: Science

Month	Chapters / Topics	Learning Outcomes
April	Ch-1 Nutrition in Plants Ch-2 Nutrition in Animals	<ul style="list-style-type: none"> • Differentiate between autotrophic and heterotrophic nutrition in plants. • Understand the role of saprotrophs in soil nutrient replenishment. • Comprehend digestive systems of amoeba, hydra, frog, and humans. • Compare ruminant and non-ruminant digestion.
May	Ch-3 Structure of Matter	<ul style="list-style-type: none"> • Understand composition of matter. • Distinguish between elements, compounds, and mixtures. • Interpret chemical symbols, formulae, and equations.
June	Ch-4 Heat and Its Effects	<ul style="list-style-type: none"> • Understand heat and its effects on matter. • Measure temperature accurately.
July	Ch-5 Flow of Heat Ch-6 Acids, Bases and Salts	<ul style="list-style-type: none"> • Differentiate between conduction, convection, and radiation. • Apply heat transfer mechanisms in real life. • Identify properties of acids and bases. • Understand preparation and uses of salts.
August	Ch-7 Physical and Chemical Changes Ch-8 Respiration	<ul style="list-style-type: none"> • Distinguish between physical and chemical changes. • Recognize types and characteristics of chemical reactions. • Understand respiration in plants and animals. • Describe structure and function of human respiratory system.
September	HALF YEARLY EXAMINATION	
October	Ch-9 Transportation of Materials in Plants & Animals Ch-10 Reproduction in Plants	<ul style="list-style-type: none"> • Understand transport mechanisms in plants and animals. • Recognize the role of excretion in homeostasis. • Learn modes of reproduction in plants. • Explain artificial methods of vegetative reproduction.
November	Ch-11 Motion and Time Ch-12 Light	<ul style="list-style-type: none"> • Understand standard units of motion and time. • Calculate speed and differentiate types of motion. • Interpret distance-time graphs. • Understand rectilinear propagation, reflection, mirrors, lenses, and the spectrum.
December	Ch-13 Electric Current and Its Effects Ch-14 Our Forests	<ul style="list-style-type: none"> • Understand electric circuits and effects of current. • Describe electromagnet and its uses. • Recognize forest ecosystems: producers, consumers, decomposers. • Understand food chains and forest conservation.
January	Ch-15 Waste Water Management	<ul style="list-style-type: none"> • Understand wastewater and sewage systems. • Recognize importance of sanitation and treatment methods. • Explore alternate sewage disposal methods.
February	Revision of Exam Portion	
March	ANNUAL EXAMINATION	

Evaluation/Examination

Exam	Chapters / Topics (Theory)	Internal Assessment
PT-1	Ch-1 Nutrition in Plants Ch-2 Nutrition in Animals Ch-3 Structure of Matter	Project & Class Assessment
PT-2	Ch-9 Transportation of Materials in Plants & Animals Ch-10 Reproduction in Plants Ch-11 Motion and Time	Project & Class Assessment
Term-1	Ch-1 to Ch-8	Written Test
Term-2	Ch-9 to Ch-15	Written Test

Sub: Social Science

Month	Subject & Chapter	Learning Outcomes
April	History Ch.1 – Tracing Changes Through a Thousand Years	- Distinguish between different historical sources.- Explain how names, territories, and boundaries changed over time.- Identify the role of historians in interpreting events.- Recognize new social and political groups emerging from 700–1750 CE.
	Civics Ch.1 – On Equality	- Understand equality in the context of democracy.- Identify instances of inequality in real life.- Appreciate the government’s role in promoting equality.- Understand how equal treatment builds a just society.
	Geography Ch.1 – Environment	- Define environment and its components.- Explain human–environment interaction.- Classify natural, human-made, and human environments.- Recognize the effects of human activities on the environment.
May	History Ch.2 – New Kings and Kingdoms	- Identify new ruling dynasties of the early medieval period.- Explain administrative structures under new kingdoms.- Interpret inscriptions as sources of history.- Understand the role of land revenue and military in kingdom expansion.
	Civics Ch.2 – Role of Government in Health	- Define health from multiple perspectives.- Compare public and private healthcare systems.- Recognize the government’s responsibility in public health.- Analyze health case studies for systemic challenges.
June	History Ch.3 – The Delhi Sultans	- Trace the rise and fall of Delhi Sultans.- Identify key dynasties and rulers.- Understand Sultanate administration and policies.- Interpret historical sources like architecture and literature.
July	Geography Ch.2 – Inside Our Earth	- Describe the structure of the Earth.- Identify types of rocks and minerals.- Explain the rock cycle.- List everyday uses of rocks and minerals.
	Civics Ch.3 – How the State Government Works	- Describe the role of MLAs and Chief Minister.- Understand the legislative process in the state.- Explain how issues are raised and resolved in the Assembly.- Explore the role of media and public in governance.
	Geography Ch.3 – Our Changing Earth	- Differentiate between internal and external Earth forces.- Describe landform formation through erosion and deposition.- Understand causes of natural disasters.- Identify effects of earthquakes, volcanoes, and floods.
August	History Ch.4 – The Mughal Empire	- List important Mughal rulers and timelines.- Describe Akbar’s administrative system.- Understand mansabdari and jagirdari systems.- Analyze reasons for the decline of the empire.
	Civics Ch.4 – Growing up as Boys and Girls	- Compare gendered experiences in childhood.- Understand how social norms influence upbringing.- Recognize the importance of unpaid domestic work.- Promote gender equality and fairness.
	Geography Ch.4 – Air	- Describe the composition of the atmosphere.- Explain the layers of the atmosphere.- Differentiate between weather and climate.- Identify elements affecting weather patterns.
September	Revision + Half-Yearly Exams	
October	History Ch.5 – Tribes, Nomads, and Settled Communities	- Recognize tribal groups and their cultures.- Compare settled and nomadic lifestyles.- Analyze the interactions between tribes and states.- Appreciate the legacy of Gonds and Ahoms.
	Civics Ch.5 – Women Change the World	- Identify barriers women face in education and employment.- Recognize contributions of women reformers.- Discuss the impact of education on women’s lives.- Understand ways to promote gender equality.
November	Geography Ch.5 – Water	- Explain the water cycle and ocean circulation.- Identify the features of ocean currents, tides, and waves.- Discuss the need for water conservation.- Understand causes of water pollution and scarcity.
	History Ch.6 – Devotional Paths to the Divine	- Understand Bhakti and Sufi traditions.- Recognize teachings of major saints like Kabir and Guru Nanak.- Explain how devotional movements challenged social norms.- Appreciate the impact of these movements on Indian society.

Month	Subject & Chapter	Learning Outcomes
December	Civics Ch.6 – Understanding Media	- Define media and its types (print, electronic, digital).- Explain how media shapes opinions and decisions.- Understand media ownership and bias.- Explore the role of advertising and news presentation.
	Geography Ch.6 – Human Environment Interaction: Tropical & Subtropical Regions	- Locate Amazon and Ganga–Brahmaputra basins.- Compare physical features and climate of both regions.- Identify vegetation and wildlife in these areas.- Explain human adaptations and lifestyle differences.
	History Ch.7 – The Making of Regional Cultures	- Recognize how language and culture developed regionally.- Understand the role of literature, art, and architecture.- Identify cultural identities formed during this time.- Appreciate diversity in regional traditions.
January	Civics Ch.7 – Markets Around Us	- Identify different types of markets (weekly, neighborhood, mall).- Understand the role of buyers and sellers.- Analyze how goods reach consumers.- Discuss how markets are influenced by profit and power.
	Geography Ch.7 – Life in the Deserts	- Describe the climate and landforms of hot and cold deserts.- Identify flora, fauna, and lifestyle in Sahara and Ladakh.- Compare economic activities in desert regions.- Understand human adaptation to harsh climates.
February	History Ch.8 – Eighteenth-Century Political Formations	- Explain the decline of Mughal power.- Identify new independent kingdoms and their rulers.- Understand the rise of regional powers and British influence.- Compare administrative changes in 18th-century India.
March	Revision + Final Exams	- Consolidate learning of Term II chapters.- Practice application-based questions.- Focus on conceptual clarity.- Prepare thoroughly for the annual assessment.

EVALUATION

Exams	Chapters/Topics of Theory Exam	Internal Assessment
PT-1	History ch 1,2 Civics ch 1,2 Geography ch 1	On the basis regular observation and written test
PT-2	History ch 5,6 Civics ch ch 5,6 Geography ch 5,6	On the basis of regular observation and written test
Term-1	History ch 1,2,3,4 Civics ch 1,2,3,4 Geography ch 1,2,3,4	On the basis of regular observation and written test
Term-2	History ch 5,6,7,8 Civics ch 5,6,7,8, Geography ch 5,6,7 (And term-1 syllabus)	On the basis of regular observation and written test
