(Maths) Ganita Prakash

Month	Chapter name	Teaching Activities	Assessment and workbook	Learning outcomes
APRIL (04/2026)	Chap-1. (Patterns in Mathematics)	Pattern drawing, oral puzzles, group discussion and Board activities.	Work book exercises, oral quiz and classwork checking.	Identify Patterns, Sequences and Mathematical relations.
May (05/2026)	Chap-2. (Lines and Angles)	Geometry box practice, classroom angle drawing and diagrams.	Worksheet practice, notebook evaluation and unit test.	Understand rays, line segments and types of angles using examples.
June (06/2026)	Chap-3. (Number play)	Number games, flashcards and Competitions.	Mental Maths Workbook and practice sheets.	Improve number skills, and mental Mathematics ability.
July (07/2026)	Chap-4. (Data Handling and Presentation)	Survey activities, graph making and interpretation exercise.	Workbook graphs assignment and practice project work.	Collect, organise and represent data using graphs and tables.
August (08/2026)	Chap-5. (Prime Time)	Prime charts making, factor tree activity and divisibility games.	Worksheet solving and peer assessment.	Understand factors, prime and composite numbers.
September (09/2026)	Half Yearly Revision	Sample paper discussion and doubt clearing sessions.	Half yearly examination and remedial work.	Revise Chap 1-5 and strengthen concepts.
October (10/2026)	Chap-6. (Perimeter and Area)	Measurement of classroom objects and practical activity.	Workbook exercises and practical notebook.	Calculate Perimeter and Area of simple figures.
November (11/2026)	Chap-7. (Fractions)	Paper folding, fraction strips and daily life examples.	Maths workbook tasks and oral assessment.	Understand fractions and basic operations on fractions.
December (12/2026)	Chap-8. (Playing with Constructions)	Step-by-step guidance and geometry lab work.	Construction worksheet and class test.	Learn Geometrical constructions using ruler and compass.
January (01/2027)	Chap-9. (Symmetry)	Mirror activity, Rangoli design and drawing tasks.	Workbook tasks and project evaluation.	Identify line symmetry and rotational pattern.

Month	Chapter name	Teaching Activities	Assessment and workbook	Learning outcomes
February (02/2027)	Chap-10. (The other Side of Zero)	Number line activity and practical examples.	Workbook practice and oral testing.	Understand negative numbers.
March (03/2027)	Annual Revision & Final Exam	Practice papers, remedial classes and discussion sessions.	Final examination and performance analysis.	Complete syllabus revision and exam preparation.

SUB: SCIENCE

Month	Chapter/ Topic	Learning Outcomes
April	Ch-1 The Wonderful world of Science Ch-2 Diversity in the Living World	1. Understand the meaning and scope of science in daily life. 2. Identify various branches of science and their applications. 3. Classify living organisms based on observable features. 4. Understand the significance of biodiversity in nature.
May	Ch-3 Mindful Eating: A Path to a Healthy Body	1. Identify major nutrients in food and their functions. 2. Understand the importance of a balanced diet. 3. Develop healthy eating habits and avoid junk food.
June	Ch-4 Exploring Magnets	1. Understand what magnets are and identify magnetic materials. 2. Demonstrate properties of magnets (attraction, repulsion, poles). 3. Explore everyday uses of magnets in different devices.
July	Ch-5 Measurement of Length and Motion	1. Use standard units to measure length accurately. 2. Understand different types of motion (linear, circular, periodic).
August	Ch-6 Materials Around us	1. Distinguish between natural and man-made materials. 2. Identify suitable materials for various uses in daily life.
September	Revision and Half yearly Examination	
October	Ch-7 Temperature and It's Measurement	1. Understand the concept of temperature and how it is measured. 2. Learn to use a thermometer safely and correctly. 3. Differentiate between hot and cold objects based on temperature.
November	Ch-8 A journey through States of Water Ch-9 Methods of Separation in Everyday life.	1. Describe the three states of water and their properties. 2. Explain processes like evaporation, condensation, melting, and freezing. 3. Understand the water cycle and its importance for life. 4. Identify different methods of separating mixtures (handpicking, filtration, sieving, etc.). 5. Understand the principle behind each method of separation. 6. Apply suitable methods for separating substances in daily life.
December	Ch-10 Living creatures: Exploring their Characteristics Ch-11 Nature's Treasures	1. List characteristics that differentiate living from nonliving things. 2. Describe basic life processes such as breathing, reproduction, and movement. 3. Identify and value natural resources like soil, water, and minerals. 4. Understand the importance of conserving natural resources.
January	Ch-12 Beyond the Earth	1. Understand the structure of the solar system. 2. Learn about the Earth's rotation, revolution, and their effects. 3. Identify celestial bodies like stars, planets, and satellites.
February	Revision	
March	Annual Examination	

Evaluation/Examinations

Exams	Chapters/ Topics	Internal Assessment
PT 1	Ch-2 , Ch-3	Project & Class Assessment
PT 2	Ch-7 , Ch-8	Project & Class Assessment
Term 1	Ch-1 to Ch. 6	Written Test
Term 2	Ch-7 to Ch. 12	Written Test

SUBJECT: SOCIAL SCIENCE

Month	Chapter / Topic	Learning Outcomes
April	Ch.1 Locating Places on the Earth Ch.4 Timeline and Sources of History Activity: Map work; Discussion on historical sources	Understand latitude, longitude, and their role in locating places on Earth. Identify major lines of latitude and meridians. Explain what history is and distinguish between primary and secondary sources of history.
May	Ch.7 India's Cultural Roots Ch.9 Family and Community Activity: Cultural show; Family tree making	Identify key elements of Indian culture and explain unity in diversity. Understand types of families and the role of family members. Explain the meaning and importance of a community.
